### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Chandran D. Kumar on February 27, 2006.

The application has been amended as follows:

In claim 1, lines 9 and 10, after "APD Device", the language " to reduce" has been deleted.

### ***Allowable Subject Matter***

Claims 1-30 are allowed.

The following is an examiner's statement of reasons for allowance: Reed '426 reference is considered to represent the most relevant state of the art, which discloses an apparatus and method of reducing hydrostatic pressure at a drill bit which comprise all of the claimed structure including a source of drilling fluids supplying under pressure, an active pressure differential device (APD) of the type including a centrifugal pump which is driven by a mud pump, the prior art of record however at least fails to teach or suggest the inclusion of a high-pressure seal associated with the mud pump to provide a controlled leakage of the drilling fluid out of the mud pump, nor the prior art of record, teaches the use of a modular tool for communicating with the return fluid for reducing the pressure in the wellbore.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Frank S. Tsay whose telephone number is (571) 272-7038. The examiner can normally be reached on Monday thru Friday, 7:30am-5:00 pm, 2nd Friday off.
